CAREER SUMMARY

MCA graduate with strong foundational knowledge in Java, JDBC, SQL, and web technologies. Experience working in team-based academic projects, contributing to backend development and database integration. Skilled in building responsive applications and implementing core programming concepts such as OOP and DBMS. Seeking an entry-level role as a Java/Software Developer to apply technical skills in a collaborative development environment.

- Available to work in flexible/rotational shifts and adaptable to changing business requirements.

Technical Skills

Programming Language: Java

Frontend: HTML5, CSS3, JavaScript

Backend: Servlet, JDBC

Database: MySQL, SQL

Tools: Eclipse, VS Code, Git, GitHub, Apache Tomcat (Basic), Docker (Basic)

Concepts: OOP, Collection, Exception Handling, DBMS, Data Structures

SDLC & Methodologies: Software Development Life Cycle (SDLC), Agile (Basic)

Projects

1. Clinic Billing & Inventory Management System

- Developed and deployed a full-stack **Clinic Management System** using **Java, JSP, Servlets, JDBC, and MySQL** to manage patient records, billing, and inventory operations.
- Designed responsive user interfaces using **HTML, CSS, and JavaScript** and implemented secure authentication with role-based access.
- Deployed the application on **Render** using **Docker** and **Apache Tomcat** for cloud accessibility.

Tools & Technologies: Java, JDBC, JSP, Servlet, MySQL, HTML, CSS, JavaScript, Docker, Apache Tomcat, Render, Git, GitHub.

Live Demo: <https://clinicbi-system.onrender.com> | **GitHub:** https://github.com/Mohitdevo/ClinicBI_System.git

2. Personal Portfolio Website

- Developed a responsive full-stack portfolio to showcase projects, technical skills, and achievements using **HTML, CSS, JavaScript, and Java Servlets/JSP**.
- Implemented an admin dashboard allowing authenticated admin to view and manage contact messages.
- Integrated a **MySQL** database to securely store, retrieve, and manage contact forms and user interactions.
- Optimized UI and navigation for cross-device responsiveness, ensuring better accessibility and presentation.

Training

Full Stack Development Trainee – JSpiders, Noida

- Built responsive web pages and improved UI design skills
- Built a strong foundation in Core Java through practical training, covering OOP principles, Collections and exception handling.

Education

Master of Computer Applications (MCA) – Quantum University, Roorkee | 2025

Bachelor of Computer Applications (BCA) – Kanpur Institute of Higher Education | 2023
